CLUB

The Harmony club held its first business meeting for the season on Wednesday afternoon when ways and means of raising funds to carry on the philanthropic work was discussed. No decision was reached, but it is believed that a series of benefit bridge teas and a dance may aid in adding to the treasury on which there were repeated calls during the summer. As many as six families were cared for in addition to a number of other cases that came to the attention of the members and which served to drain the treasury. The club transacted much business at the initial session, at which time it was announced that a social meeting would be held Oct. 19 at the Woman's club, the hostesses being Mrs. H. J. Bennett, Mrs. A. J. Bellas, Mrs. Sarah Schwartz, Mrs. W. V. Zelik and Mrs. L. W. Green.

The general program of the College club for this year is a study of Arizona's early days; relics of primitive inhabitants, the Spanish passing and of various existing Indian tribes in the state; their art, industries and peculiar characteristics. Mrs. M. J. Dougherty of Mesa, chairman of the program committee, is being complimented by the members in the clever arrangement of her subjects, as well as her choice of subject matter. The year's program has been divided into two distinct parts, the first three having been arranged by Mrs. H. A. Guild, on the theme of Woman's Citizenship. Mrs. Guild conducted the initial program Wednesday and in her able manner sketched the first year's club organized in 1934 and outlined the growth and tendencies of women's organizations down to the present time. Mrs. Guild spoke of the great number of women's organizations, of their

great power and their great responsibility, and urged that they should draw resolutions only with conscientious caution.

The Osborn Woman's club, which holds its meetings the first and third Wednesdays of each month. An interesting and instructive program has been arranged, following closely the one outlined by the national and state federations. The whole tone of the year's work will be the development of the practical rather than the theoretical, assisting its members with present problems and hastening the return to normal conditions.

The organization meeting of the Apollo club will be held Tuesday afternoon at 4:15 o'clock at the Osborn school under the direction of Mrs. Thomas J. Prescott. Following the election of officers and appointment of committees a clever program will be presented by the junior members including a piano number by Madeline Atkinson who will play "The Last" (Schmoll); a French dance by Helen Hanley and a piano number by Emma Bayless "Lushie" (Schmoll). Later a game in which a song will figure will be played. "Here We Go Round The Mulberry Bush." The club is an auxiliary of the Musician's club and the meetings during the year will be in charge of Mrs. John A. Messenger assisted by Mrs. Pierce Jackson.

The civics education department of the Woman's club will hold its first meeting of the year Monday afternoon at 2:15 o'clock. Mrs. Grace Yarwood, the chairman announces an interesting program followed by a social hour.
